FREJA eID RELEASE NOTES

These Release Notes describe all the changes made to Freja eID systems from the previous release. They include:

- Updates to the Freja eID mobile application from version [6.10](#) to [6.11](#) on both Android and iOS.

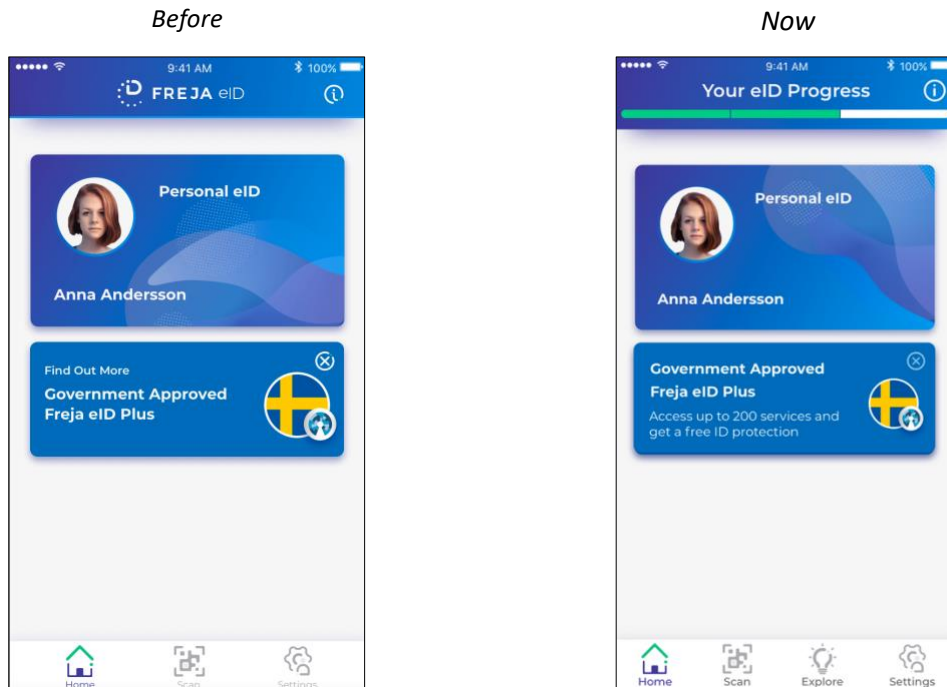

Summary

- ACCOUNT STATUS PROGRESS BAR

We have added a progress bar to the Freja eID mobile app to help users understand the registration process in Freja eID. The progress bar will be visible in the header, and by tapping it a drop-down screen will appear with more details.

Account status progress bar

We want to guide users to the registration process in the Freja eID app, and to do that we have added a progress bar that is visible in the header.

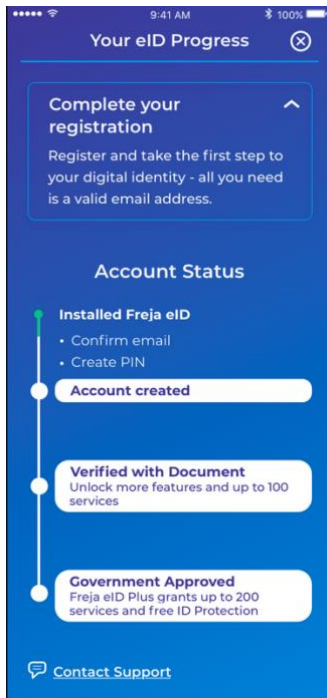

This bar will gradually fill as users go through the registration steps in the app:

1. Creating an account – by confirming their email and setting a PIN
2. Verifying their identity – by adding their document and taking a photo of themselves
3. Getting Freja eID Plus – by visiting a Freja eID agent with their ID document

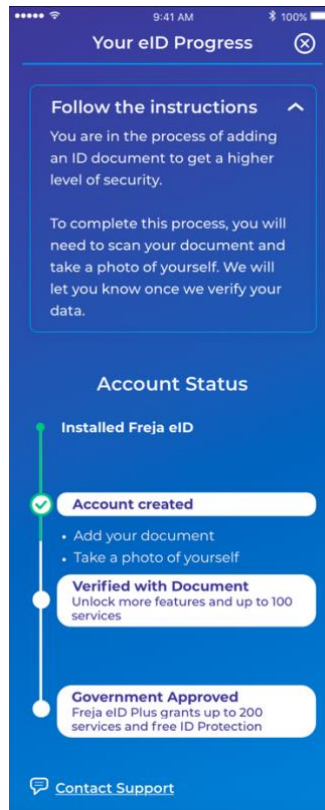

Please note that the process of registration itself has not been changed. Once the user gets Freja eID Plus, the progress bar will disappear.

By tapping on the progress bar, a drop-down screen with more information will appear guiding the user to the next steps:

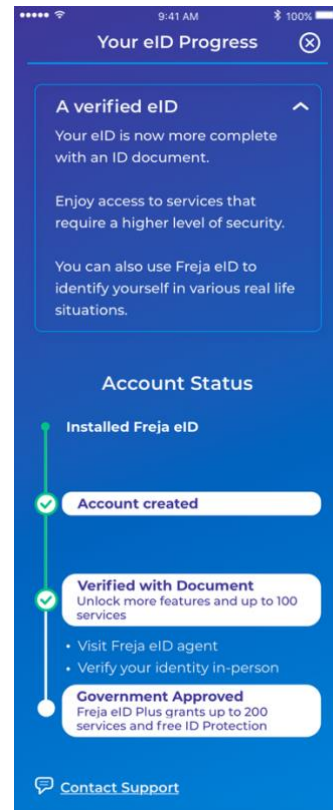

To create an account

To verify their identity

To get Freja eID Plus
